DUTCH VENTURE INITIATIVE S.A. SICAR

Board of Directors' report

For the year ended March 31, 2021

The Dutch Venture Initiative S.A. SICAR ("DVI" or "the Company") was incorporated on August 7, 2013 as a risk capital investment company (Société d'Investissement en Capital à Risque) established as a public limited liability company (Société Anonyme) subject to the Luxembourg 15 June 2004 Act on SICAR. The Company was approved by the Luxembourgish financial sector supervision authority, the Commission de Surveillance du Secteur Financier ("CSSF") and entered on the official list of SICARs with effect as of August 7, 2013.

The Company's first closing took place on August 12, 2013 at an amount of EUR 150m with regional development agency Oost NL and EIF committing EUR 100m each, but EIF's commitment being capped at one third of the total fund size (i.e. EUR 50m at the first closing size). On December 10, 2014 the Brabantse Ontwikkelings Maatschappij B.V., via one of their investment vehicles Innovatiefonds Brabant B.V., announced its entry into the capital of DVI with EUR 5m bringing the total commitments into DVI to EUR 157.5m as this commitment released an additional EUR 2.5m in commitments from EIF. On July 16, 2015 the total commitments to DVI increased once again. Oost NL committed an additional EUR 30m, which automatically released additional commitments of EUR 15m from the side of the EIF. This allowed DVI to subscribe EUR 45m into the Dutch business angel initiative European Angels Fund S.C.A. SICAR – EAF Netherlands ("EAF Netherlands" or "EAF NL"). As a result of this EUR 45m capital increase, the Company held a final closing of EUR 202.5m.

As of the reporting date, DVI had made commitments to 14 different funds; being (in alphabetical order) Aglaia Oncology Fund II, Endeit Fund II, European Angels Fund – EAF Netherlands, Forbion Capital Fund III, Gilde Healthcare III, Gilde Healthcare Services II, henQ III, HPE Fund II, Karmijn Kapitaal I, Keen Venture Partners, Life Science Partners V, Newion Investments II, Prime Ventures IV and SET Fund II. The total amount of signed transactions has reached EUR 193m, representing 95.3% of the fund size. During the reporting period, these 14 funds made 19 new investments, bringing the total of underlying portfolio companies to 201, of which 111 based in the Netherlands. It is again interesting to note that new successes in DVI's underlying company portfolio have been realised, as a total of seven new exits have been announced during the reporting period, which brings the total of exits in the underlying DVI company portfolio to 39. The total amount of capital called from investors since the incorporation of the Fund climbed to EUR 162.8m, representing 80.3% of the total commitments. Only two of the underlying 14 funds have drawn less than 70% of their committed capital, whilst nine of the 14 underlying funds have already past the 80% drawn mark.

The Company can look back on a dynamic investment activity since inception about eight years ago. DVI has had important effects on the development of the Dutch market and its innovation eco-system. The combined size of the 14 underlying DVI funds has reached an amount of over EUR 1.5 billion. As the investment activity across these funds reaches its operational capacity, DVI has demonstrated successfully its role in strengthening the capital base of innovative Dutch SMEs and in providing them with growth opportunities.

It is evident that the current pandemic will have a significant impact across society and the wider economy. It is fair to assume that over time the DVI portfolio will be impacted as well, as the business models of many companies will need to adapt to new market conditions. Having said this, the Company's underlying portfolio has been remarkably resilient with no signs as yet on an aggregate basis of a significant adverse impact. To the contrary, the current pandemic accelerated trends in society that positively impacted the performance of some underlying portfolio companies.

DUTCH VENTURE INITIATIVE S.A. SICAR

Board of Directors' report (continued)

As a final note, investment initiatives in the public domain, such as but not limited to DVI, are scrutinised by various media channels in the Netherlands. Especially in the context of providing continuity and stability to venture and growth capital ecosystems to support SMEs in the Netherlands, it is important to monitor the situation closely and - if appropriate – to intervene in order to safeguard the reputation of the Company. Given the complexity of the situation and the variety of different stakeholders that are involved in the activities of the Company, the Board of Directors from time to time engages with external advisers on this matter.

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Opinion

We have audited the accompanying financial statements of Dutch Venture Initiative S.A SICAR (the "Company"), which comprise the Statement of financial position as at March 31, 2021 and the Statement of comprehensive income, Statement of changes in net assets attributable to holders of redeemable shares and Statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at March 31, 2021, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) as adopted by European Union.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Company in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Directors of the Company for the financial statements

The Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with IFRSs as adopted by European Union, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the réviseur d'entreprises agréé for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board Directors.

- Conclude on the appropriateness of the Board of Directors’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d’entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d’entreprises agréé”. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

DUTCH VENTURE INITIATIVE S.A. SICAR

The accompanying notes form an integral part of these financial statements.

Notes to the financial statements

For the year ended March 31, 2021

1. General information

Dutch Venture Initiative S.A. SICAR (the “Company”) was incorporated on August 7, 2013 as a Luxembourg investment company in risk capital (Société d'Investissement en Capital à Risque) with variable capital governed by the 2004 Act, the Companies Act and the Articles of Incorporation and has adopted the form of a public limited liability company (Société Anonyme). The registered office of the Company is established in 15, Boulevard F.W. Raiffeisen L-2411 Luxembourg. The company is registered with the Luxembourg trade and companies register under the number B.179.637.

The Company's investment objective is to invest in assets representing risk capital over a long investment horizon (on average 10 to 15 years). The Company intends to achieve its objectives through the construction of a balanced portfolio of Portfolio Funds that invest their assets in private equity or venture capital. All participation in, or commitments to portfolio funds will have to qualify as risk capital within the meaning of article 1 of the 2004 Act and CSSF Circular 06/241.

Portfolio Company will target as part of their investment objectives to invest in innovative SMEs with above-average future growth prospects and a strong competitive position in their sector.

The Company has been set up for a limited duration and will be automatically put into liquidation on August 7, 2030, or if earlier, the date on which all investments have been disposed or with supermajority resolution. At any time, the Board may, upon proposal of the adviser, elect to extend the term for up to two consecutive additional one-year periods.

The fiscal year will begin on April 1 of each year and ends on March 31 of the next year.

As at March 31, 2021, the Company is held by European Investment Fund (“EIF”), by Ontwikkelingsmaatschappij Oost Nederland NV (“Oost NL”) and by Innovatiefonds Brabant B.V.. Ordinary shares are held by EIF and Innovatiefonds Brabant B.V., Class A shares are held by EIF and Class B shares are held by Oost NL.

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

2. Summary of significant accounting policies

The financial statements of Dutch Venture Initiative S.A. SICAR have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (IFRS).

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to the year presented, unless otherwise stated.

2.1 Basis of preparation

2.1.1. Basis of measurement

The financial statements have been prepared on an historical cost basis except for the following material item in the statement of financial position:

- financial assets at fair value through profit or loss which are measured at fair value.

The Company's financial statements have been authorized for issue by the Board of Directors on July 29, 2021.

2.1.2. Use of estimates and judgments

The preparation of financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment when applying the Company's policies. Use of available information and application of judgment are inherent in the formation of estimates. Actual results in the future could differ from such estimates and the differences may be material to the financial statements.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are described in note 2.2.

Judgments and estimates are principally made in the following areas:

- determination of fair values of financial assets.
- determination and disclosures of unconsolidated structured entities and investment entities in which the Company has an interest

In respect of unconsolidated structured entities and investment entities, further disclosures are described in note 4.

2.1.3 Investment entities' consolidation exemption

The Investment entities' consolidation exemption (Amendments to IFRS 10, IFRS 12 and IAS 27) is applicable for the periods commencing on April 1, 2014. The Company qualifies as an investment entity since it meets the below criteria under IFRS 10:

- Obtain funds from one or more investors for the purpose of providing those investors with investment management services;

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

2. Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

2.1.3 Investment entities' consolidation exemption (continued)

- Commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both; and
- Measures and evaluates the performance substantially all of its investment on a fair value basis.

Since the Company meets the definition of an investment entity, it is not required to consolidate the investment. As a result, the Company has accounted its investments at fair value through profit or loss (FVTPL).

IFRS 9 Financial Instruments:

This standard sets out requirements on the classification and measurement of financial instruments, a new credit loss model for calculating impairment on financial assets, and replaces IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 also tackles hedge accounting which is not applicable to the Company.

The Company has adopted IFRS 9 with a date of transition of 1 April 2018 and did not early adopt any of IFRS 9 in previous periods.

IFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics. IFRS 9 contains three principal classification categories for financial assets: measured at Amortised Cost (AC), Fair Value through OCI (FVOCI) and Fair Value Through Profit or Loss (FVTPL). The standard eliminates the existing IAS 39 categories of held to maturity, Loans and Receivables (L&R) and Available For Sale (AFS).

As the Company already classified its investments in private equity funds and equity securities as FVTPL, there was no difference in the measurement category and the carrying amount of financial assets as at 1 April 2018 with the adoption of IFRS 9.

Other assets and liabilities are all measured at amortised cost similar to what was done in prior years.

IFRS 15 – Revenue from contracts with customers:

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised and replaces existing revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction Contracts and IFRIC 13 Customer Loyalty Programmes.

Given the nature of the Company's income, the adoption of IFRS 15 did not have any material impact on the Company's operations.

DUTCH VENTURE INITIATIVE S.A. SICAR
Notes to the financial statements (continued)

For the year ended March 31, 2021

2. Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

2.1.5. Functional currency and foreign currency translation

(a) Functional and presentation currency

These financial statements are presented in euro, which is the Company's functional currency.

'Functional currency' is the currency of the primary economic environment in which the Company operates. If indicators of the primary economic environment are mixed, the management uses its judgment to determine the functional currency that most faithfully represents the economic effect underlying transactions, events and conditions.

The Company's investors are mainly from the Eurozone, with the subscriptions and redemptions of the shares denominated in Euro. The performance of the Company is measured and reported to the investors in Euro.

The Board of Directors considers the Euro as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are presented in Euro, which is the Company's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the statement of financial position date. Foreign exchange gains and losses arising from translation are included in the statement of comprehensive income.

Foreign exchange gains and losses relating to cash and cash equivalents, if any, are presented in the statement of comprehensive income within 'net foreign currency gains or losses on cash and cash equivalents'.

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the statement of comprehensive income within 'Fair value adjustment on financial assets at fair value through profit or loss'.

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

2. Summary of significant accounting policies (continued)

2.2. Financial assets at fair value through profit or loss - Investments

2.2.1. Classification and measurement

Classification

The Company classifies its investments in private equity funds and equity securities as financial assets at fair value through profit or loss (hereafter “FVTPL”). The classification of the investments is determined at initial recognition. Such investments are acquired for a long term in the normal course of the Company’s activities.

Initial recognition and derecognition

Purchases and sales are initially recognised on trade date. They are initially recognised at fair value. Fair value consideration is explained in the section below.

Financial assets are derecognised when the right to receive cash flows from the financial assets has expired or when the Company has substantially transferred all risks and rewards of ownership.

Subsequent measurement

The financial assets are subsequently measured at fair value, and any changes in fair value are directly recognised in the statement of comprehensive income within net income from financial assets at FVTPL, in the period in which they arise.

Fair value measurement

Private equity investments are classified as Fair Value through the Profit and Loss (FVTPL) and are measured at fair value and disclosed in accordance with the fair value hierarchy required by IFRS 13 and described in note 3.4.1. The fair value of financial assets traded in active markets (level 1 according to the fair value hierarchy) are based on quoted market prices at the close of trading on the reporting date. Given the nature of private equity, market prices are often not readily available and in the absence of these valuation techniques (level 3 according to the fair value hierarchy) are applied.

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

2. Summary of significant accounting policies (continued)

2.2. Financial assets at fair value through profit or loss - Investments (continued)

2.2.1. Classification and measurement (continued)

For the valuation of private equity, the Company further breaks down these valuation techniques into 3 categories as follows:

- Category A – funds that have adopted the fair value requirements of IFRS 9 or IPEV Guidelines. The fair value is calculated by applying the aggregated Net Asset Value (NAV) method. This valuation method implicitly assumes that if the NAVs of underlying funds can be considered as equivalent to the fair value as determined under IFRS 9, then the aggregation of the NAVs of all funds will itself be equivalent to the fair value as determined under IFRS 9.
- Category B – funds that have adopted other valuation guidelines or standards that can be considered as in line with IFRS 9 from which an equivalent NAV can be calculated.
- Category C – funds that have not adopted the fair value requirements of IFRS 9 or any other valuation guidelines in line with IFRS9.

Although it is assumed for Category A that the NAV is a reliable estimation of the fair value and a specific review is performed for categories B and C, it must be stated that underlying investments have been estimated in the absence of readily ascertainable market values. Because of the inherent uncertainty of valuation and current market conditions, actual results in the future could differ from the fund manager's estimate of values and the difference may be material to the financial statements.

As far as Category C funds are concerned, adjustments to the NAV may be required to comply with the Company's valuation policy.

The investee funds of the Company have been classified as Category A. The fair value attributable NAV of the investee funds is determined through applying either the Company's percentage ownership in the underlying vehicle to the NAV reflected in the most recent report or, to the extent available, the precise share value at the same date, submitted by the respective fund manager.

In the first year of a private equity fund, assets are carried at cost i.e net paid in amount. Adjustments are made only in case of unrealised loss or gain of an underlying portfolio.

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

2. Summary of significant accounting policies (continued)

2.3. Prepayments

This asset item includes expenditure incurred during the financial year but relating to a subsequent financial year and is measured at cost.

2.4. Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits, other short-term highly liquid investments with original maturities of three months or less.

2.5. Other payables and accrued expenses

Other payables and accrued expenses are not interest bearing and are stated at their nominal value which approximates their fair value because of their short term to cash payment.

2.6. Interest and similar income

Interest income and similar income is recognised in the statement of comprehensive income, within interest income. Interest-bearing instruments currently comprise deposit accounts only, on which interest is accrued at cost.

2.7 Shares

The Company is a closed-ended SICAR; consequently investors are not entitled to request redemption of their Shares, except the European Investment Fund. The Company issues ordinary, class A and class B shares for which the Management of the Company decided to recognize them as a financial liability according to the definition of IAS 32.

Shares may be redeemed at the initiative of the Company in some circumstances. The Company may in particular decide to:

- redeem Shares of any Class, on a pro rata basis among shareholders in order to distribute net distributable cash.
- redeem Shares held by Restricted Person, or in case of admission of subsequent investors or redeem shares held by an investor who fails to make required contributions or other payments.

2.8 Transaction costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, when incurred, are immediately recognised in statement of comprehensive income.

2.9 Distributions payable to shareholders

Proposed distributions to shareholders are recognised in the statement of changes in net assets attributable to holders of redeemable shares when they are appropriately authorised and no longer at the discretion of the Company. This typically occurs when proposed distribution is ratified at the Annual General Meeting. The distribution on the shares is recognised as a finance cost in the statement of changes in net assets attributable to holders of redeemable shares.

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

2. Summary of significant accounting policies (continued)

2.10 Increase/decrease in net assets attributable to holders of redeemable shares from operations

Income not distributed is included in net assets attributable to holders of redeemable shares. Movements in net assets attributable to shareholders are recognised in the statement of changes in net assets attributable to holders of redeemable shares as finance costs.

2.11 Taxation

According to the 2004 Act, the Company is subject to Luxembourg income tax. However, income arising from securities held by the Company, as well as income arising from the sale, contribution or liquidation of securities held by the Company, does not constitute taxable income.

Income arising from liquid assets pending their investment in capital risk also does not constitute taxable income under the 2004 Act. This exemption only applies to the twelve month year immediately prior to the investment of such assets in risk capital assets.

The Company is not subject to net wealth tax and the activity of rendering services relating to the management of a SICAR is exempt from VAT, no stamp duty or other tax is due on the issue or transfer of the Shares.

2.12 New standards and interpretations not adopted

A number of new standards are effective for annual periods beginning after 1 January 2021 and earlier application is permitted; however, the Company has not early adopted the new or amended standards as they are not expected to have any significant impact.

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

3. Financial risks

The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and interest rate risk and price risk), credit risk and liquidity risk.

The Company's overall risk management programme seeks to maximise the returns derived for the level of risk to which the Company is exposed and seeks to minimise potential adverse effects on the Company's financial performance. The Company's policy allows it to use derivative financial instruments to both moderate and create certain risk exposures.

The management of these risks is carried out by the Adviser under policies approved by the Board of Directors. The Board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, the use of derivative financial instruments and non-derivative financial instruments and the investment of excess liquidity.

The Company's use of leverage and borrowings can increase the Company's exposure to these risks, which in turn can also increase the potential returns the Company can achieve. The Company will have the power to borrow money (directly or at the level of intermediary vehicles) through loans, repurchase obligations or otherwise, and to secure those borrowings with liens or other security interests in, or mortgages on, the assets of the Company provided that the Company will not, at any point in time, incur a level of borrowing in excess of an amount equivalent to the lower of 20% of the aggregate commitments and the aggregate amount of undrawn commitments at such date. Investments and lending in loan are limited to a maximum of 20% of the aggregate commitments.

The Company uses different methods to measure and manage the various types of risk to which it is exposed; these methods are explained below.

3.1 Market risk

(a) Other market price risk

The Company is exposed to equity securities price risk. This arises from investments held by the Company for which prices in the future are uncertain. Where non-monetary financial instruments – for example, equity securities – are denominated in currencies other than the euro, the price initially expressed in foreign currency and then converted into euros will also fluctuate because of changes in foreign exchange rates. Paragraph 'Foreign exchange risk' below sets out how this component of price risk is managed and measured.

The Company's policy is to manage price risk through diversification and selection of securities and other financial instruments within specified limits set by the Board of Directors.

The Company will not invest more than 15% of the aggregate commitments in one single portfolio fund; however, the Company may invest up to 20% of aggregate commitments in any one single portfolio fund subject to the unanimous consent of all members of the investment committee.

The Company will seek to take participations of between 10% to 40% of a portfolio fund's aggregate commitments, up to a maximum of 49.9%; to assess such 49.9% limit, participations in the relevant portfolio fund held by the adviser (whether in its own name or as manager/agent/trustee/adviser for others) will be added to the Company's participation; provided however that the Company may with the unanimous consent of the members of the Investment Committee take a participation representing up to 100% of the aggregate commitments to EAF Netherlands.

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

3. Financial risks (continued)

3.1 Market risk (continued)

(a) Other market price risk (continued)

The Company will exclusively enter into loan or other similar type of arrangements as lender alongside, or for the preparation of, investments and lending will be limited to a maximum of 20% of the aggregate commitments at any point in time. Where lending structures are used to take equity risks, such funding will be considered as equity (convertible bonds and warrants etc.).

The Company may (but is not under an obligation to) use financial instruments to hedge the Company's exposure to currency exchange rate fluctuations resulting from participations or commitments in portfolio funds not denominated in Euro between the date of the commitment and the date on which such commitment is being drawn down. The Company will not seek any form of hedging for any other risk of currency fluctuations and such risk will be borne entirely by the Investors.

As at March 31, 2021, the fair value of the investments per sector in which the Company invests was as follows:

March 31, 2021				
	*% Ownership	Cost	Fair value	Fair value adjustment
Generalist	28,70%	50 194 782	50 822 423	627 641
ICT	15,78%	50 412 012	90 347 696	39 935 684
Life Science	6,56%	18 965 810	42 623 615	23 657 805
Total investments		119 572 604	183 793 734	64 221 130

** Average stake of the companies in the underlying investment categories.*

As at March 31, 2020, the fair value of the investments per sector in which the Company invests was as follows:

March 31, 2020				
	*% Ownership	Cost	Fair value	Fair value adjustment
Generalist	28,70%	44 451 293	43 064 399	(1 386 894)

Notes to the financial statements (continued)

For the year ended March 31, 2021

3. Financial risks (continued)

3.1 Market risk (continued)

- (a) Other market price risk (continued)

Price Sensitivity Analysis

Using the most conservative beta from the three listed PE indices, LPX Europe Price Index, LPX Venture Price Index and LPX Buyout Price Index, and assuming market price movements of $\pm 10\%$, the final sensitivity (i.e. beta $\times \pm 10\%$) is applied to the net asset value to give an adjusted net asset value, which is then compared to the net paid in.

The PE investment value would be impacted as follows:

As at March 31, 2021

Public market risk: ALL PRIVATE EQUITY	
+10%	-10%
Retained Beta 0.982	Retained Beta 0.982
Final Sensitivity: +9.82%	Final Sensitivity: -9.82%
Total effect on Net assets	Total effect on Net assets
(EUR)	(EUR)
18 048 545	(18 048 545)

As at March 31, 2020

Public market risk: ALL PRIVATE EQUITY	
+10%	-10%
Retained Beta 0.997	Retained Beta 0.997
Final Sensitivity: +9.97%	Final Sensitivity: -9.97%
Total effect on Net assets	Total effect on Net assets
(EUR)	(EUR)
14 879 111	(14 879 111)

- (b) Currency risk

Foreign currency risk, as defined in IFRS 7, arises as the value of future transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates. IFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not foreign currency risk. However, management monitors the exposure on all foreign currency denominated assets and liabilities.

As at March 31, 2021 and at March 31, 2020, there is no foreign exchange risk as all the transactions have been made in the functional currency, EUR.

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

3. Financial risks (continued)

3.1 Market risk (continued)

(c) Interest rate risk

Interest rates are determined by factors of supply and demand in the international money markets, which are influenced by macro-economic factors, speculation and central bank and government intervention.

Fluctuations in short term and/or long term interest rates may affect the value of the Company. Interest rate risk is the risk resulting from changes in the level of interest rates, in the slope of the yield curve, in the shape of the yield curve, or in any other interest rate relationship.

The Company's exposure to interest risk rate is limited to its cash and cash equivalents that have a maturity of less than one year. As at March 31, 2021 and at March 31, 2020, there is no significant interest rate risk.

3.2 Credit risk

The Company is exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

For the Company, the greatest exposure in terms of credit risk relates to its cash and cash equivalents (Note 8).

The Company's policy is to minimize credit risk by entering into transactions only with leading financial institutions and reputable industrial companies. Cash balance and deposits with the bank are exposed to credit risk. The rating of Société Générale (Luxembourg) is A/A-1 and BGL BNP Paribas (Luxembourg) is A+/A-1 according to Standard & Poor's.

As at March 31, 2021 and at March 31, 2020, there are no financial assets that are past due or impaired.

3.3 Liquidity risk

Liquidity risk is the risk that the Company may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. Therefore, the liquidity risk relates to working capital on the short-term and underlying investments on the long term.

The objective of the Company in relation to the liquidity risk is to ensure on both short-term and long-term views that all financial liabilities will be met without impacting the return to its shareholders.

- Liquidity risk on payables

At the Company level, the liquidity risk may arise from the operating payables included in the statement of financial position as at the year end. The Company must ensure that it owns sufficient cash and cash equivalent to discharge itself from these short-term obligations.

As at March 31, 2021 and at March 31, 2020, the cash is sufficient to cover all the payables.

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

3. Financial risks (continued)

3.3 Liquidity risk (continued)

- Liquidity risk at exit date

The second component of risk relative to timely exit arises particularly from the fact that the Company invested 100% of its total assets in unquoted securities. As the Company invests most of its funds in illiquid assets, the liquidity risk must be considered as one of the key risk for the Company

However, even if the illiquidity aspect of the assets may impact the value of the investments at exit date, it is not in the intent of the Company to implement an exit strategy over the short-term. The investment year of the Company is not yet ended as at March 31, 2021 and at March 31, 2020.

- Liquidity risk on defaulting shareholders

At the Company level, liquidity risk may also arise upon failure by a shareholder to make payment pursuant a capital call. Liquidity risk related to defaulting shareholder is mitigated by accepting commitments to the Company only from reputable, well-informed institutional and professional investors.

The advisor manages liquidity risk by ensuring that the Company has sufficient cash and cash equivalent at all times. In terms of liquidity risk at exit date, the advisor regularly monitors and simulates the exit strategies to ensure that the optimum exit strategy will be executed within the term of the Company.

The table below analyses the Company's financial liabilities into relevant maturity groupings based on the remaining year at the date of the statement of financial position to the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows.

March 31, 2021 Financial liabilities	Less than 1 month	1 to 12 months	More than 12 months	No stated maturity	Total
Other payables and accrued expenses	-	115 917	-	-	115 917
Other Debts	-	-	-	640	640
Net assets attributable to holders of redeemable shares	-	-	192 303 607	-	192 303 607
Contractual cash outflow	-	115 917	192 303 607	640	192 420 164

3.4 Capital risk management

The capital of the Company is represented by the net assets attributable to shareholders. The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Company.

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

3. Financial risks (continued)

3.4 Capital risk management (continued)

The capital of the Company is represented by the net assets attributable to shareholders. The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Company.

The investment advisor monitors capital on the basis of the value of net assets attributable to shareholders.

The Company is a closed-ended SICAR, consequently investors are not entitled to request redemption of their Shares, except for the ordinary and class A shares held by the European Investment Fund.

3.4.1 Fair Value Classification

The fair values of financial assets and financial liabilities that are treated in active markets are based on prices obtained directly from an exchange on which the instruments are traded or obtained from a broker that provides an unadjusted quoted price from an active market for identical instruments. For all other financial instruments, the Company determines fair values using other valuation techniques.

For financial instruments that trade infrequently and have a little price transparency, fair value is less objective and requires varying degrees of judgement depending on liquidity, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

(i) Level 1: Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1. Quoted prices for these instruments are not adjusted.

(ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2.

(iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the investment. All the investments held by the Company and classified as financial assets at fair value through profit or loss are included in this category. The inputs into the determination of fair value require significant management judgment or estimation.

The table below analyses financial instruments measured at fair value as at March 31, 2021 according to the level in the fair value hierarchy into which the fair value measurement is categorised:

Assets measured at fair value	Level 1	Level 2	Level 3	Total balance as
	EUR	EUR	EUR	at March 31, 2021
Financial assets at fair value through profit or loss	-	-	183 793 734	183 793 734

Notes to the financial statements (continued)

For the year ended March 31, 2021

4. Financial assets at fair value through profit or loss

Financial fixed assets held by the Company as at March 31, 2021 can be detailed as follows. The fair value is the sum of acquisition costs of the investment and the cumulative fair value variations of the underlying investments since the acquisition date.

Name	Country	CCY	Total commitment (in EUR)	Drawn amount * (in EUR)	Undrawn commitment (in EUR)	Cost (in EUR)	Fair Value (in EUR)	Unrealised gain/(loss) (in EUR)
Generalist	Netherlands / Luxembourg	EUR	86 000 000	56 470 047	29 529 953	50 194 782	50 822 423	627 641
ICT	Netherlands / United Kingdom	EUR	69 000 000	58 870 441	10 129 559	50 412 012	90 347 696	39 935 684
Life Science	Netherlands	EUR	38 000 000	33 036 366	4 963 634	18 965 810	42 623 615	23 657 805
			193 000 000	148 376 854	44 623 146	119 572 604	183 793 734	64 221 130

* During the financial year, the capital repayments which were paid and which are not recallable are included in the amounts disclosed in the column "Drawn amount".

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

4. Financial assets at fair value through profit or loss (continued)

As at March 31, 2020, financial fixed assets held by the Company were as follows:

Name	Country	CCY	Total commitment (in EUR)	Drawn amount * (in EUR)	Undrawn commitment (in EUR)	Cost (in EUR)	Fair Value (in EUR)	Unrealised gain/(loss) (in EUR)
Generalist	Netherlands	EUR	86 000 000	50 661 770	35 338 230	44 451 293	43 064 399	(1 386 894)
ICT	Netherlands	EUR	69 000 000	52 875 818	16 124 182	50 037 007	78 130 612	28 093 605
Life Science	Netherlands	EUR	38 000 000	29 252 184	8 747 816	20 357 946	28 043 814	7 685 868
			193 000 000	132 789 772	60 210 228	114 846 246	149 238 825	34 392 579

* During the financial year, the capital repayments which were paid and which are not recallable are included in the amounts disclosed in the column "Drawn amount".

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

4. Financial assets at fair value through profit or loss (continued)

Information concerning the name, address, amount of capital and reserves and profits and losses for the last financial year of the undertakings in which the Company holds at least twenty percent of the capital is not presented in accordance with article 67(1)(b) of the amended law of December 19, 2002 on the register of commerce and companies and the accounting and annual accounts of undertakings.

4.1 Generalist sector

As at March 31, 2021 the Company held a weighted average of 28.70% of the Generalist sector for a total commitment of EUR 86 000 000.

At the end of the year, EUR 29 529 953 remains unfunded.

4.2 ICT sector

As at March 31, 2021, the Company held a weighted average of 15.78% of the ICT sector for a total commitment of EUR 69 000 000.

At the end of the year, EUR 10 129 559 remains unfunded.

4.3 Life Science sector

As at March 31, 2021, the Company held a weighted average of 6.56% of the Life Science sector for a total commitment of EUR 38 000 000.

At the end of the year, EUR 4 963 634 remains unfunded.

5. Other receivables

As at March 31, 2021, this item is mainly composed of a receivable for NWT advances for an amount of EUR 13 910.

6. Other payables and accrued expenses

As at March 31, 2021, accrued expenses are composed as follows:

	As at March 31, 2021	As at March 31, 2020
	EUR	EUR
Administration fees	65 723	69 714
Audit fees	40 753	31 274
Other fees *	6 634	64 635
Legal fees	2 807	10 044
Prepaid Capital Call *	-	4 000 000
	115 917	4 175 667

* Other fees are composed of equalization interest and of accrued interest payables.

* Prepaid Capital Call corresponds to capital call received in advance from the investors of the SICAR.

DUTCH VENTURE INITIATIVE S.A. SICAR
Notes to the financial statements (continued)

For the year ended March 31, 2021

7. Other debts

As at March 31, 2021, other debts are composed as follows:

	As at March 31, 2021	As at March 31, 2020
	EUR	EUR
VAT on foreign invoices	640	3 259
	640	3 259

8. Cash and cash equivalents

The position as at March 31, 2021 on cash account is as follows:

	As at March 31, 2021	As at March 31, 2020
	EUR	EUR
Cash at bank	8 597 633	5 268 748
	8 597 633	5 268 748

9. Deferred charges

During the year, the Company paid insurance fees for the year from August 2020 to August 2021 for EUR 26,000 (2020: EUR 26,000) and the annual CSSF fees for 2021 for EUR 4,000 (2020: EUR 4,000). To reflect only the expenses for the year ended on March 31, 2021 deferred charges for EUR 11,667 (2020: EUR 11,667) have been booked.

DUTCH VENTURE INITIATIVE S.A. SICAR

Notes to the financial statements (continued)

For the year ended March 31, 2021

10. Shares

As at March 31, 2021, the Company issued three types of shares. The movements in the number of shares are as follows:

<u>Redeemable shares</u>	<u>Class A</u>	<u>Class B</u>	<u>Ordinary</u>
As at April 1, 2020	1	81 035 922	45 193 109
Shares issued during the year	-	13 160 493	7 339 506
Shares redeemed during the year	-	(4 501 565)	(2 510 488)
Equalisation	-	-	-
As at March 31, 2021	1	89 694 850	50 022 127

As at March 31, 2020, the Company issued three types of shares. The movements in the number of shares are as follows:

<u>Redeemable shares</u>	<u>Class A</u>	<u>Class B</u>	<u>Ordinary</u>
As at April 1, 2019	1	69 721 107	38 882 924
Shares issued during the year	-	14 137 618	7 884 441
Shares redeemed during the year	-	(2 822 803)	(1 574 256)
Equalisation	-	-	-
As at March 31, 2020	1	81 035 922	45 193 109

European Investment Fund has subscribed one Class A share for EUR 1. This kind of share, limited to a maximum of one share, is reserved only for subscription by the EIF and grants its holder the right to receive preferred return and Carried interest.

Class B Shares are reserved for subscription by Oost NL and grant their holders the right to receive preferred return.

Ordinary shares are reserved to eligible investors and have the same financial rights as the Class B.

The movements in the capital since the incorporation of the Company are as follows:

As at March 31, 2021

	<u>Commitment</u>	<u>Called commitment*</u>	<u>Uncalled commitment</u>
	<u>EUR</u>	<u>EUR</u>	<u>EUR</u>
Class A	1	1	-
Class B	130 000 000	95 531 806	34 468 194
Ordinary	72 499 999	53 277 352	19 222 647
	202 500 000	148 809 159	53 690 841

*These figures are netted with distributions that are classified as recallable.

	202 500 000	142 309 160	60 190 840

Distribution payable to shareholders

Subject to the remaining provisions, all net distributable cash will be distributed to investors in accordance with the following waterfall:

- (a) Firstly, 100% to all investors in repayment of their capital contributions; The Capital Contributions in relation to one investment from the Generalist sector are excluded.
- (b) Secondly, 100% to all investors in proportion to their capital contributions (with the exclusion of the Capital Contributions in relation to one investment from the Generalist sector) until they have received distributions equal to a 5% per annum compound interest calculated annually (the preferred return) on the capital contributions (with the exclusion of the Capital Contributions in relation to one investment from the Generalist sector) at any time outstanding, from the date of payment of the same up to the date of reimbursement upon distributions;
- (c) Thirdly (Catch Up), 100% to the holder of the class A Share until it has received in aggregate an amount equal to 11.111% of the preferred return
- (d) Fourthly, 90% to all investors (including the holder of the class A share in such capacity) and 10% to the holder of the class A share.

For the year ended March 31, 2021, the total cash distribution amounts to EUR 7 012 054 (2020: EUR 4 397 059).

Following the distribution mechanism described above, the liquidation results would follow the allocation below if the Company was liquidated as of March 31, 2021:

- Ordinary Shares : EUR 66 673 711 or EUR 1.333 Net Asset Value per share;
- Class A Shares: EUR 6 077 034 or EUR 6 077 034 Net Asset Value per share;
- Class B Shares: EUR 119 552 861 or EUR 1.333 Net Asset Value per share;

For the year ended March 31, 2021

16. Interest in unconsolidated structured entities and in investment entities

The Company has interest in entities that have been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only, or when the relevant activities are directed by means of contractual arrangements. The Company has interest in unconsolidated structured entities as described below.

Structured entities or investment entities may be established as corporations, trusts or partnerships. Structured entities or investment entities generally:

- subscribe to equity issued by SMEs in the context of Private Equity transactions

The table below describes the types of structured entities in which the Company concluded that it has an interest and no control:

Type of structured entity	Nature and purpose	Interest held by the Company
Limited Partnership in relation to Private Equity operations (see section 17.1)	Acquisition, holding, managing and disposal of participations in any enterprise subject to the conditions laid down in the Limited Partnership Agreement	<ul style="list-style-type: none">• Investments in shares issued by the Limited Partnership• Capital and revenues repayments

16.1 Interest in structured entities in relation to Private Equity operations

Below is a description of the Company's involvement in unconsolidated structured entities by type. The Company concluded that it does not control and therefore should not consolidate any entity described in section 16.1 as the Company does not have power over the relevant activities of the entities.

Notes to the financial statements (continued)

For the year ended March 31, 2021

16. Interest in unconsolidated structured entities and in investment entities (continued)

16.1 Interest in structured entities in relation to Private Equity operations (continued)

Operations are typically structured as follows:

- An investment fund is setup with a General Partner (hereafter “GP”) and with a number of Limited Partners (hereafter “LPs”), who form together the Limited Partnership. In addition, the Limited Partnership Agreement discloses the investment strategy foreseen within the entity and agreed between the GP and the LPs;
- When financing is brought by the LPs, full authority and power is given to the GP, which could delegate the investment part to an investment manager;
- The use of voting rights by the LPs is often foreseen to revoke the GP either with a cause or without cause. Even if an investment board within the entity is setup, it should be noted that such an investment board has a consultative role only and is not therefore one of the decision-making bodies of the Limited Partnership.

The Company is an LP, it does not act as a GP and is from time to time a member of the consultative investment board. Commitments have been made to funds that focus on investments in innovative SMEs with above average future growth prospects and a strong competitive position in their sector.

As at the year end all investments in unconsolidated structured entities are recognised in assets at fair value through the profit or loss.

As at 31 March 2021 the Company’s interest ranged from 5.46% to 29.89% and the maximum loss exposure from PE structured entities is limited to the amount of committed investments as disclosed in Note 4. The nature of these investments is further detailed in Note 4 and the risk exposure in Note 3.

17. Significant events during the year

On 11 March 2020, the World Health Organisation characterised Covid-19 as a pandemic. The responses to this virus from the various Governments in Europe and from the various European bodies such as the European Commission or the European Central Bank have been announced. However the Management recognises that the effects of the pandemic on the financial markets and on the economy may have a significant impact on the underlying SME supported by the Fund. The valuation of the financial assets as at 31 March 2021 as disclosed in the financial statements reflects the economic conditions in existence at that date. The management will continue to closely monitor the economic impact of Covid-19.
